Subject: RE: AMD/TRW FFS?

Melanie,

The draft FFS submitted to the Water Board is dated May 2011. The document was never finalized. It is important to note that the information in this document is outdated, as it pre-dates the revised understanding of the conceptual site model (CSM) after the environmental sequenced stratigraphy (ESS) evaluation was performed at the site. It was also prepared prior to implementation of several EAB activities, source removal activities, installation of the passive sub-slab depressurization system, and subsequent post-installation vapor intrusion evaluation. I will send the draft FFS via AECOM Sendfiles.

Thank you,

Holly Holbrook
Project Engineer, Environment

Rebecca Holly

Would you please send the staff copied on this email a link to the draft TRW FFS?
Thank you
